

Connections:

Support Group for Children with Exceptional Siblings

Children (aged 6-12) are invited to connect with others who have siblings who are neurodiverse, live with physical, cognitive, or mental health disabilities.

What to expect?

Arts, crafts, music and movement (including yoga!) with others who really understand.

Come join Angela Taylor, find connection with each other, and learn ways to connect with our families that include children with differences.

**WE HAVE LIMITED SPACE
SO PLEASE REGISTER EARLY**
