

ASIST: APPLIED SUICIDE INTERVENTION SKILLS TRAINING

ASIST is a two-day in-person interactive workshop in suicide first-aid. Created by LivingWorks, this workshop teaches participants to recognize when someone may have thoughts of suicide and work with them to create a plan that will support their immediate safety. Although ASIST is widely used by healthcare providers, participants don't need any formal training to attend the workshop as ASIST can be learned and used by anyone. In fact, participants without prior learning are as successful as participants that do.

For more information on ASIST, visit the LivingWorks website at <https://www.livingworks.net/>
